

# Alcatel OneTouch Elevate Rear Camera Replacement

This guide will show you how to replace the rear camera on the phone.

Written By: Son Bao Luong

# INTRODUCTION

Guide on replacing motherboard is required before this guide.

## TOOLS:

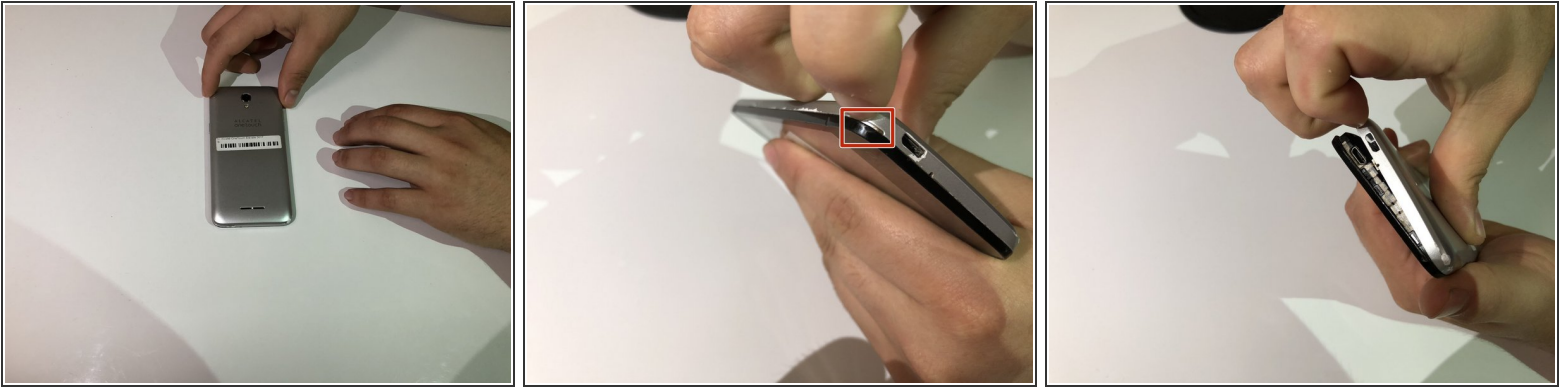

- [Fingers](#) (1)
- [iFixit Opening Tools](#) (1)

## PARTS:

- [OEM Alcatel One Touch Elevate 5017B Rear Camera](#) (1)

## Step 1 — Battery

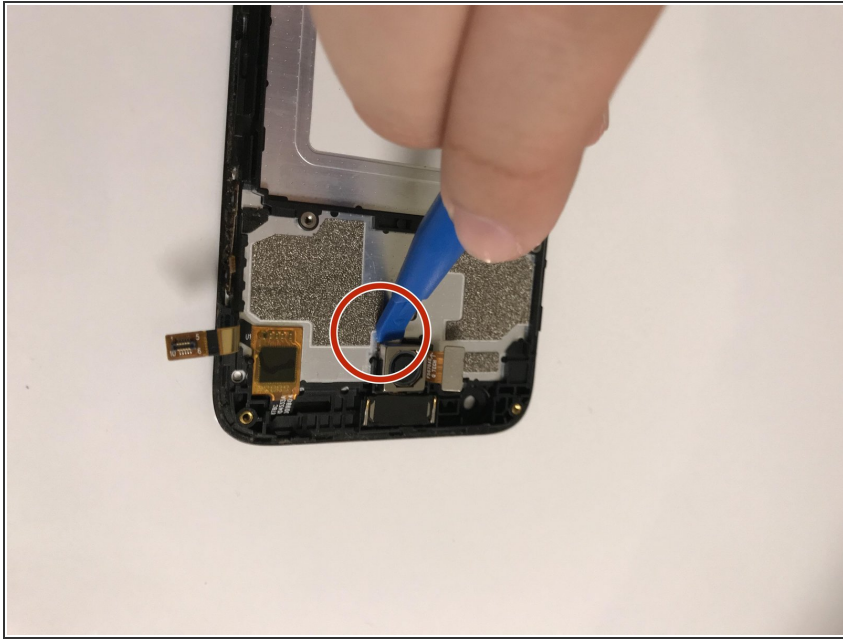

- Locate the small indent on the lower left corner.
- Use your fingers or a small plastic opening tool to lift the back cover off.

## Step 2

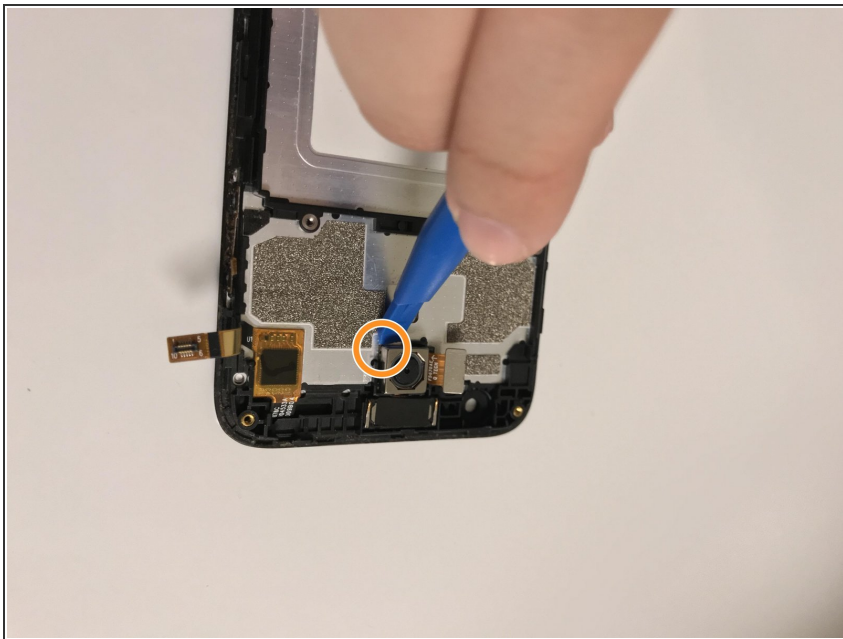

- Locate the indent between the battery and your phone.
- Use your finger or a small plastic opening tool to lift the battery free.

## Step 3 — Rear Camera

- Find the camera and look for one of the corner where there is no border around the camera. (Red circle)

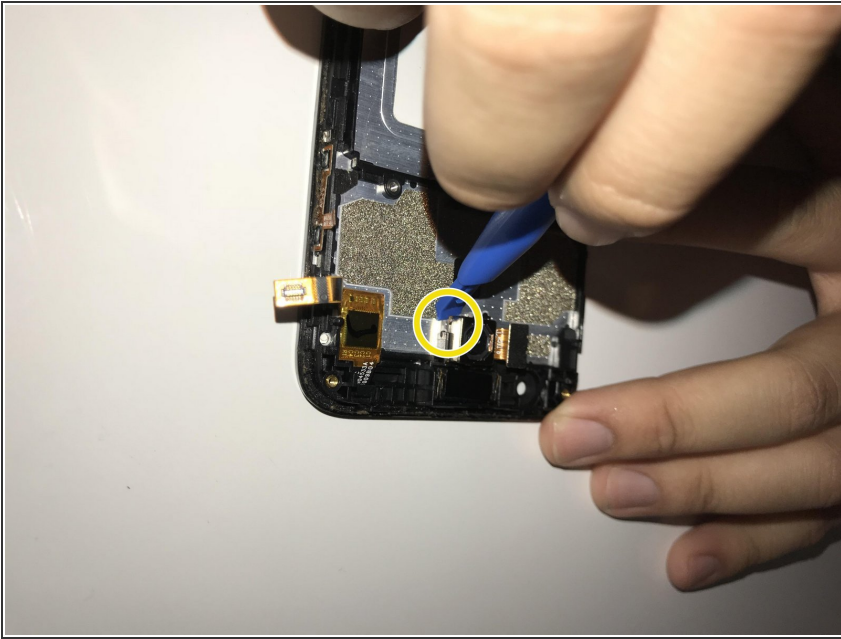

## Step 4

- Gently put the opening tool head as close as possible to the edge, where the camera and the phone stick. (Orange circle)

## Step 5

- Flip the camera up carefully and slowly.

## Step 6

- Put the old camera out and replace with the replacement.
- Gently press on the camera and wait for it to stick back to the phone.

To reassemble your device, follow these instructions in reverse order.
