Dell Inspiron 15-7548 Speaker Replacement

Is the sound coming out of your laptop...

Written By: brianna cordoway

INTRODUCTION

Is the sound coming out of your laptop distorted or unclear? Consider using this guide to replace the speakers in your device.
🔧 TOOLS:

- Phillips #1 Screwdriver (1)
- Spudger (1)

Step 1 — Back Panel

- Remove the six 6 mm screws from the back panel with a Phillips #1 screwdriver.

- Loosen the four captive screws at the bottom using a Phillips #1 screwdriver.

- (i) The four screws on the bottom are captive screws and cannot be removed.

Step 2

- Pry out the back panel using the flat head side of the spudger.
⚠ Do not insert the spudger more than half an inch when separating the bottom and right side of the back panel.
Step 3 — Battery

- Disconnect the battery from the motherboard by pulling the black tab attached to the cable.

Step 4

- Remove the four 2.5x6mm screws using a Phillips #1 screwdriver.

## Step 5 — Speaker

- Remove the ribbon cable by pulling it out.

Step 6

- Remove the compression caps by using the spudger.

Step 7

- Untangle the wire from the plastic clips and remove the speakers from the device.

To reassemble your device, follow these instructions in reverse order.
