MacBook Pro 15" Unibody Mid 2012 Disable 2nd GPU to prevent white screen or green stripes during boot process

Geschrieben von: Cherry

Schritt 1 — MacBook Pro 15" Unibody Mid 2012 Disable 2nd GPU to prevent white screen or green stripes during boot process

- 1) Boot Macbook with keys pressed Command + S
- 2) Wait for active command line
- 3) Enter these 3 commands:
 - `nvrnm fa4ce28d-b62f-4c99-9cc3-6815686e30f9:gpu-power-prefs=%01%00%00%00`
 - `nvrnm boot-args="-v"`
 - `reboot`
- System should boot without issues.
