Step 1 — Battery

- Turn the laptop off and disconnect all sources of power.

- Set the laptop on a flat surface with the bottom side facing up.

Step 2

- Slide the battery release tab.

  ⓘ This will eject the battery.

- Carefully remove the battery and set it aside.

Step 3 — Solid State Drive (SSD)

- Use a PH1 screwdriver to unscrew the 2 screws that secure the hard drive cover.

- Remove the cover.

Step 4

- Unscrew the next three screws holding the hard drive in place.

- Pull the black ribbon and slide the hard drive out of place.
