

TiVo Premiere XL4 Case Replacement

How to replace a TiVo Premiere XL4 case.

Written By: Frances Prewitt

INTRODUCTION

To fix any component inside the TiVo, this is important to understand how to first take off the first piece of equipment so the user can handle the rest.

TOOLS:

- [T10 Torx Screwdriver](#) (1)
-

Step 1 — Case

- Power down the TiVo Premiere XL4 by detaching the power cable from the unit and power source.

⚠ Allow the box to cool for at least 5 minutes before proceeding to the next step.

Step 2

- Remove the four 80 mm T10 screws from the back of the TiVo box using the Torx screwdriver.

Step 3

- Take the outer casing by sliding the top of the box off of the component carefully, making sure not to damage the surrounding components inside.
