INTRODUCTION

Lithium-ion batteries only last so long. Here we show you how to replace your battery with a new one to recoup your battery life.

PARTS:

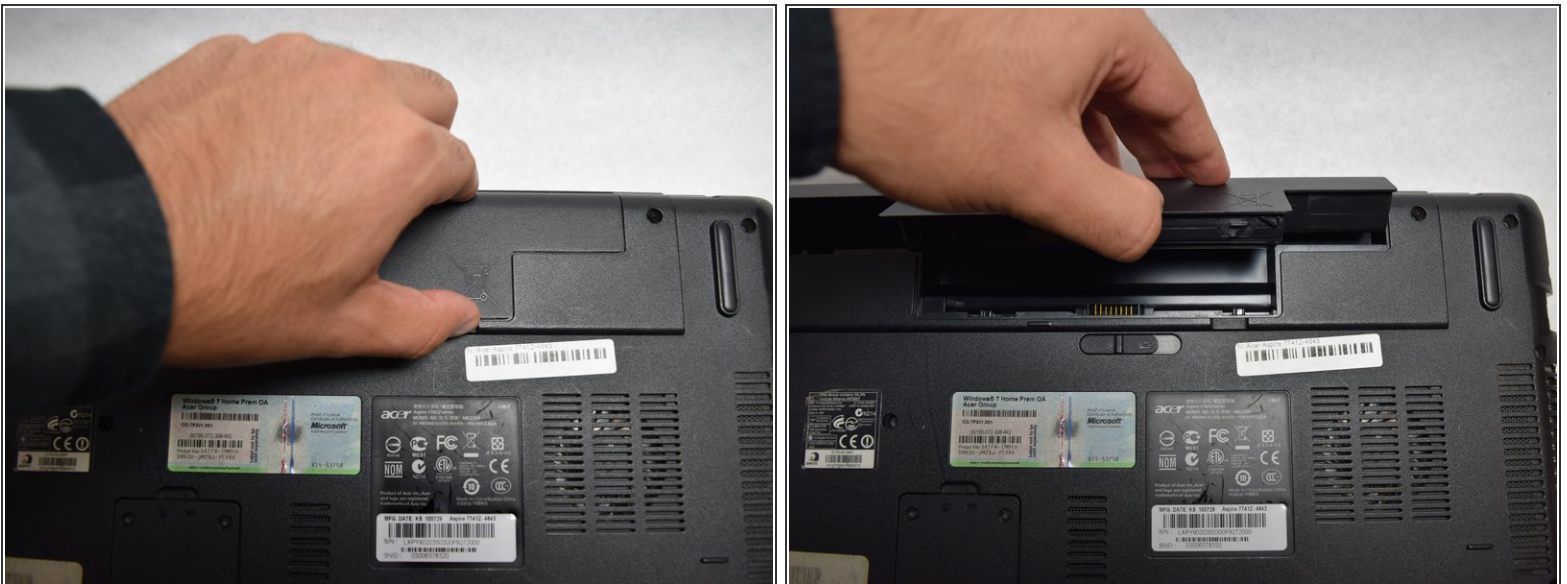

- [Acer Aspire \(4741G/5741/7741\) and TravelMate \(8572/8472\) Replacement Laptop Battery](#) (1)
-

Step 1 — Battery

- Slide the tab on the laptop's underside all the way towards yourself. You should then see an unlocked icon on a red background.
- With the tab still unlocked, slide and release the tab below the battery. The battery should slightly pop up.

Step 2

- Using your fingernail, pull the battery up and out.

To reassemble your device, follow these instructions in reverse order.
