---

## INTRODUCTION

To network card allows the device to access wireless networks. To access this part the rear cover will need to be removed.

---

### TOOLS:

- [Phillips #0 Screwdriver](#) (1)
  - [Spudger](#) (1)
-

## Step 1 — Battery

- Push orange locking tab with spudger right, until battery lifts out of place.

⚠ Laptop should be unplugged from power supply before removal.

## Step 2 — Rear Cover

- Unscrew the two 7 mm long #0 Phillips screws.

### Step 3

- Lift and remove the cover panel via the indentation in the middle of the panel.

### Step 4 — Wireless Network Card

- Dislocate the white wire by pushing upward away from the network card.

## Step 5

- Dislocate the black wire by pushing upward away from the network card.

## Step 6

- Unscrew the 3 mm long #0 Phillips head screw.

## Step 7

- Pull the card outward to remove.

To reassemble your device, follow these instructions in reverse order.
