Nokero SunRay Pro Power Panel Front and Back Case Replacement

Follow this guide to remove the front and back case of the power panel.

Written By: Jeremy

INTRODUCTION

Removing the front and back case will allow you access to other parts of this device.

🔧 TOOLS:

- iFixit Opening Tools (1)
- Phillips #00 Screwdriver (1)

Step 1 — Front and Back Case

- Turn over the device so that the back of the device is facing up.

Step 2

- Insert the first plastic opening tool along the side to pry open the case.

- ⓘ Sliding the plastic opening tool, while inserted, along the seam may help the removal process.

- Use a second plastic opening tool to help separate the remaining seams.

Step 3

(i) There is a long strip of double sided adhesive foam tape that prevents the back case from easily being removed.

● Pull the back case off by applying steady pressure to remove it from the adhesive foam tape.

Step 4

- Use the Phillips precision screwdriver to unscrew the two 5.0 mm Phillips screws from the circuit board.

- Remove the solar panel and circuit board from the front case.

To reassemble your device, follow these instructions in reverse order.
