# INTRODUCTION

This Guide will show how to remove the phone's battery charger connector.

## TOOLS:

Spudger (1)

T6 Torx Screwdriver (1)

### Step 1 — Battery

- Press the button on the bottom of the rear cover.
- Keep the button pressed while pulling the cover downward to remove the back cover.
- Lift the cover off.

## Step 2

- To remove the battery, push it down from the top and pull it out.

## Step 3 — Disassembling Nokia 6590i Keypad, Speaker, and Screen Assembly

- Grip the front cover from the bottom.

## Step 4

- Lift the front cover off.

## Step 5

- Remove the six screws using a T6 torx screwdriver.

## Step 6

- Insert spudger along edge of assembly and gently lift assembly away from case

## Step 7

- Remove assembly from phone

## Step 8 — Logic Board

- The logic board now sits on top of the phone.

## Step 9

- Lift the logic board out of the phone.

## Step 10 — Battery Charger Connector

- Locate battery charger connector

## Step 11

- Grasp top and bottom of battery charger connector on the left side

## Step 12

- Lift out the battery charger connector
