#### Step 1 — Battery and memory card door

• Take the device in your hand, and hold it with the shutter side of the device facing upward.

# Step 2

- With the shutter still facing up, make sure the battery door is facing your opposite hand.
- Using your free hand, pick up your new battery door.

This document was generated on 2020-11-20 07:35:12 AM (MST).

## Step 3

 Make sure that the new battery door is groove side up so that the door will slide onto the metal bracket on the device.

## Step 4

- Line up the grooves on the battery door with the metal bracket and press the door towards the device.
- The battery door is held on by tabs.
  Make sure that the tabs click into place on the door.

To reassemble your device, follow these instructions in reverse order.
