Step 3 — USB Logic Board

- Remove the 4 screws using the T6 screw driver.

Step 4

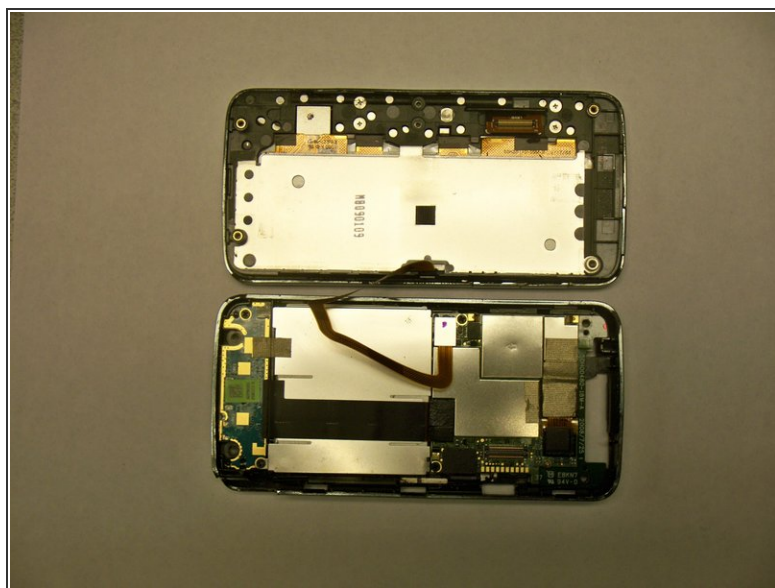

- Lift the plastic cover near the memory card slot.

Step 5

- Remove the two Phillips #00 screws from the backside of the screen.
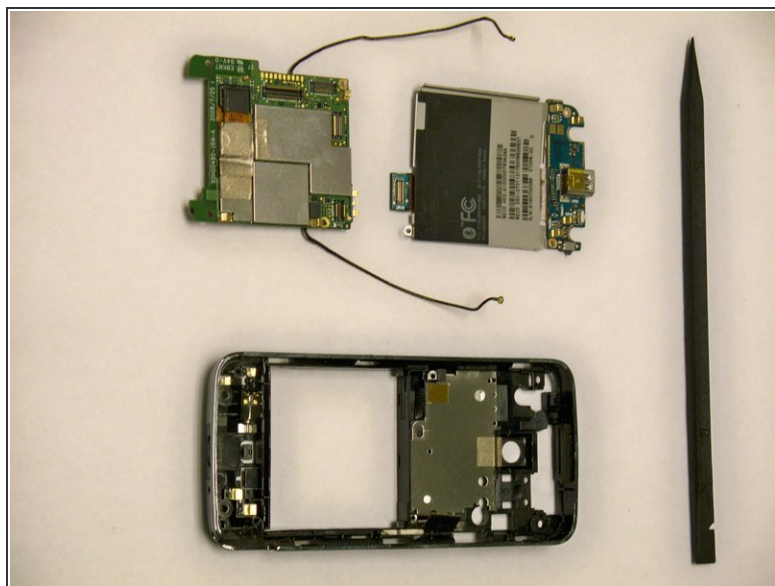

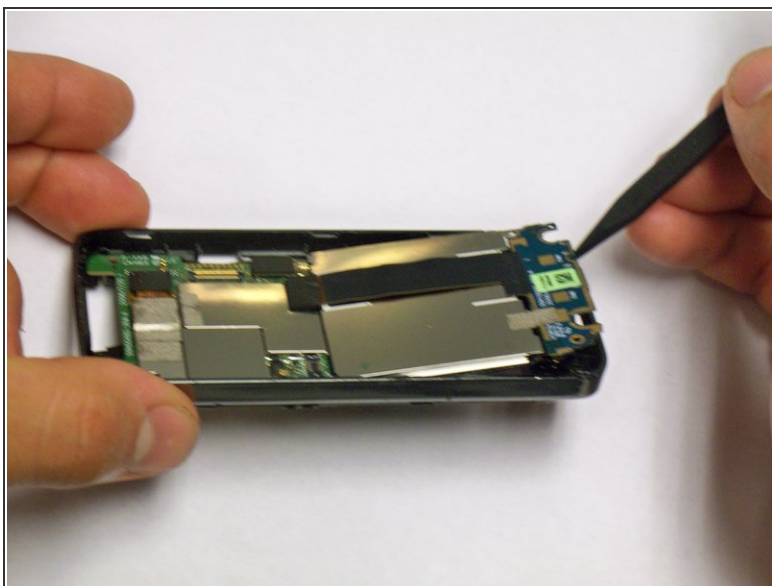

Step 6

- Insert a spudger or a plastic opening tool into the seam on the side of the phone.

- Gently pry apart the two halves of the phone.

Step 7

- Gently unplug the connectors.

- Remove the screws with a 00 Phillips-head screwdriver.

Step 8

- Gently lift the motherboard up using a nylon spudger.

- ⚠ BE AWARE OF THE ANTENNA.
