

Nike+ Sportband External Case Replacement

This guide will walk through the steps necessary to disassemble the NikePlus Sportband completely.

Written By: Alyssa Setnar

INTRODUCTION

This guide is useful when preparing for the replacement of many components of the NikePlus Sportband. This guide will serve as a prerequisite guide for the battery, motherboard, and screen replacement guides.

TOOLS:

- [Metal Spudger](#) (1)
-

Step 1 — External Case

- To begin the disassembly of your NikePlus Sportband, first remove the device from the rubber wristband.

Step 2

- Finish the disassembly of your NikePlus Sportband by utilizing the metal spudger tool on the short edge to pry the external body pieces apart.

To reassemble your device, follow these instructions in reverse order.
