  - [Tweezers](#) (1)
-

## Step 1 — Front Facing Camera

- Start by prying the back off by using plastic opening tools.
- Slide the flat end of the plastic tools into the seam device.
- Using another plastic tool, slowly pry along the seam until the back pops off.

## Step 2

**⚠** Reminder to disconnect the battery.

- Locate the Camera in the top left corner of the Leader Impression.
- Using the tweezers, remove the bottom of the camera from the motherboard.
- The top of the camera will detach as you pull upward.

## Step 3

- Remove the camera from it's slot.

To reassemble your device, follow these instructions in reverse order.
